MONDAY MORN'O AUG. 11, 1851.

IF We call the attention of our read ers, throughout the County, to the advertisement, in another column, of the grand exhibition, on the 10th of Bep tember, in Providence, by the Rhade Island Society for the encouragement of Domestic Industry. We trust that no efforts will be spared by the citizens of Rho le Island to make this Fair worthy of the character of the State, and the genius of her people. Such displays have a tendency to arouse an honorable spirit of competition and enterprise, and consequently to advance Manufactures of all kinds. In this respeet Rhode Island will already compare lavorably with any State in the Union; but we are not content with this. We desire to see her progress, and to occupy a position much in advance of her sister States. The North part of the State, particularly, will no doubt be ably and profusely represent ed at the coming .Fair,-and we are unxious to see Newport County appear as well, on that occust in, as any other section of the State, in proportion to her population and means. This can easily be done, if our citizens will only deternane that it shall be. We refer our readers to the advertisement, in another column, for all the particulars as to the Fair, and the time as to when articles m ust be gent, &c.

IF There will be a Hop at the Bellevue House this evening; it will, no doubt be a brilliant affair.

OF Among the distinguished men in town, we notice Hon. John Wentworth, he is accompanied by his wife and has taken rooms at the Bellevue House.

IF We copy the following remarks from the Providence Journal, in regard to the recent exhibition of the University Grammar School, in Providence, under the charge of Messrs. Lyon & Frieze. William E. Bailey is a son of Joseph I. Bailey, Esq., of this town:-

"Wisious of the Past and Future," by William E. Bailey, ovinced a familiarity with historical facts unusual in so yauthful an orator.

The Exampton, we would repeat, must be highest honor to the Grammar School and was all that could have been expected from that institution in its present most flourishing state.—
Hhode Island has reason to be proud of her-University, and no less of the propagatory department which semis preparatory department which sends this year seventeen students to her halls this year seventeen students to not more to copy the advantages of a more extended course of education. The number will be doubled we trust next year, for we know of no instructors better worthy of the confidence of the commuulty, or more certain to send thoroughly trained students to the College, then the gentlemen at the head of the University Grammar School.

We most cheerfully endorse all which the Journal says in regard to this excellent School; and we cheerfully recommend it to the patronage of gentlemen who wish to prepare their sons either for College or the active business duties of life.

PHENOMENA IN LARE MICHIGAN. Several times this season, the people of Chicago have been startled by the sadden rising of the waters of Lake Michgan to the height of several feet, without any apparent cause. On the 26th of July, according to the Chicago Journal, the lake played its antice all day the water tising from two to four feet every half hour or so, and as suddenly receding. At duck, while the take was nooth as a mirror, without wind or any apparent cause, the water rose to the height of four feet twice within an heur. What has enused this great commotion with old Michigan is a mystery. It is certainly very unaccountable.

SOMETHING NEW-GALVANIC PRINTS iso Press .-- Mr. F. Foreman passed up on the falton, on Sunday, on his way to Washington, to procure a patent for a most ingenious and practical invention. He had with him a model of a printing press, moved and regulated by means of galvanic magnets. We shall not attempt a complete description of Mr. P./s discovery-suffice it to any, that he had the press in full operation, with a form upon it, from which he threw off impressions with the rapidity of lightning. His paper works upon a reel, and is continuous, like the telegraphic coil. The paper passes over the type on a cylinder, and when one side is worked the paper is reversed, and the other side printed with a most perfect register, and the sheets are clipped apart as they come from press, by an ingenious contrivance. There is no limit hardly to the speed at which this press will work; its exactness is beyond anything known in this line of machinery, and what is better than all, Mr F, says he can put up the largest sized press at the cost of not more than \$599. Mr. Foreman is a practical printer, and at present a citizen of New Boston, III. - Muscaline, (lown) Enq.

Рорру-нико Тил.-- Some усыги адо n well known botanical doctor was called in to prescribe for a man who kept for sale all kinds of dogs. The patient was a great believer in herbs and botanical productions, and was indeed very ill. The doctor felt his pulse, and as he was leaving the room said, Oh, cheer up, Mr. Jones, Pli send you some herb medicine that will put you all right again. I want to find your wile. To the latter, who met him on the stairs, he said, Mrs. Jones, I'll be back here again very shortly, and in the meanwhile make your husband a large bowl full of poppy-head tea. The wift of the sick man was a German weman, and didn't exactly understand what was ordered. As soon as the ductor was gone, she went into the yard and took from a litter of Newfoundland puppies five specimens, cut their heads off, and boiled them down, and gave her husband a part of the tea.

In the evening when the doctor returned, he usked-

Well, Mrs. Jones, have you done as

I ordered you to do? To be sure I have, doctor.

Well, and how does it operate? Operate, sir? I can't tell: but l'ia sure, Sam will kill me when he gets

Puppy-head tea, replied the avoman. Puppy-head tea! I told you poppyhead tea.

And the doctor sloped; for his patient who by the way got well, and after a while forgave his wife, but nover the doctor, and has eschewed botanical medicines over since.

BY TELEGRAPH.

New Yore, Aug. 8 .- The utility of the Telegraph was illustrated to day, in the appreliantion of John M. Cookson, the supposed murderer of his wife, at Pawtucket or Seekonk, a short time since. The schooner in which he had taken passage for Suffolk, Va., was compelled, by contrary winds, to put into this port. Mr. McKee, of Front street, who is connected in business with the owner of the achooner, and who had read in the morning papers an account of the nurder and the escape of Cookcan, immediately gave notice of the prrival of the schooner to the Chick of Police, who sent officers on board of her, and arrested Cookson and a nephew who shipped with him. The prisoners were sent to Providence, by the steamer, this evening.

BALTIMORE, Aug. 8 - Murphy, Tayor, and Shelton, the murderers of the Cosden family, were hung to-day, surrounded by some 8000 speciators. The criminals denied their guilt to the last. When they were swing off, the rope slipped from Murphy's neck and he fell violently to the ground, a distance of fifteen feet. He was picked up insensible, but shortly revived, when he was re-hung, and this time successfully. There was no disturbance, and the crowd, satisfied with horror, quietly dis-

Kentucky Election.

Louisville, Aug. Sth. Returns thus far received, show the election of Presley Ewing, (Whig) in the 3rd district.

In the 5th district, James W. Stone, (Dem.) is probably elected, which is a Democratic gain. In the 9th district, Isham G. Hurris. (Democrat,) is reelected.

The next delegation will stand five Democrats and four Whigs, and one Independent Whig.

The Whige generally concede the election of Lazarus W. Powell, (Dem.) as Governor.

John B. Thompson (Whig) is elected Licutenant Governor.

INDIANPOLIS, Aug. 7. All the Congressional districts have been heard from but the First. The result is the election of the following :-2d District.-Cyrus L. Donham; dem. 3d District.-John L. Robinson, do 4th District-Samuel W. Parker,

5th District-Thomas A Hendricks.
6th District-Willis A. Gorman. 9th District-Graham N. Flich.

10th District-James W. Borden. (The despatch does not give the names of the members elect in the seventh and eighth district.)

Alabama Election.

Monthomery, Aug. 7th. The election generally has resulted in heavy majorities for the Union candidates.

The secessionists will only carry about eight counties throughout the whole State.

In the 2d district, James Abercrombie (Union) is certainly elected by 500 to 1000 majority. In the 1st district, Chas. C. Langdon (Union) is beaten by John Bragg (secessionist.)

It is thought that in the 3d district Wm. S. Mudd (Union) is beaten by Sampson W. Harris (secessionisi.)

In the 7th district the contest between Alexander White (Union) and Samuel F. Rice (secessionist) is doubtful.
